Cluster Allogio Gading Serpong Allogio Barat 2 no. 38

Hello, my name is Felix. I am a 3rd-year Informatics student at Multimedia Nusantara University, passionate about analysis and dedicated to achieving excellence in the IT field. I am enthusiastic about integrating the knowledge I have gained throughout my studies with practical experience to thrive in the ever-evolving world of technology. I continuously strive to improve myself amidst ongoing digital advancements, with a strong focus on becoming a proficient Full Stack Developer as well as an AI & Software Engineer.

Work Experiences

Game Development Club - Jalan Scientia Boulevard Gading,
Curug Sangereng, Serpong, Kabupaten Tangerang, Banten
15810

Oct 2024 - Mar 2025

Programming Instructor

- Taught 2D game development fundamentals using modern game engines, guiding members through coding principles such as object behavior, collision detection, and animation scripting.
- Led a student project team to successfully design and launch a playable 2D game prototype, integrating creative design and efficient code to deliver an engaging player experience.

Universitas Multimedia Nusantara - Jalan Scientia Boulevard
Gading, Curug Sangereng, Serpong, Kabupaten Tangerang,
Banten 15810

Feb 2025 - Jun 2025

Assistant Laboratory

- Assisted lecturer in conducting practical sessions for the Operating System (CL) course during the Even Semester 2024/2025, ensuring all lab activities ran smoothly and on schedule.
- Designed and delivered instructional materials to guide students through OS concepts such as process management, memory allocation, and file systems, improving comprehension and engagement.
- Collaborated with the Laboratory Coordinator and fellow assistants to maintain alignment with the course syllabus (GBPP), achieving a total performance score of 97/100 with the rating "Sangat Memuaskan".
- Demonstrated strong teaching and communication skills through coordination of materials, effective presentation delivery, and professional conduct throughout lab sessions.
- Contributed to enhancing student learning outcomes by providing hands-on support and ensuring lab practices adhered to academic standards.

Ms Susan Learning Center - The Loop, Blk. B2 Jl. Lkr. Botanika
Selatan No.12, Pagedangan, Kec. Pagedangan, Kabupaten
Tangerang, Banten 15339

Aug 2025 - Present

Tutor

- Taught Coding, ICT, Mathematics, Physics, and Science using interactive and project-based learning methods to help students grasp complex concepts through real-world applications.
- Developed and implemented digital learning activities that improved student engagement, problem-solving, and critical thinking, while making lessons more practical and accessible.

Education

Universitas Multimedia Nusantara - Jalan Scientia Boulevard Gading, Curug
Sangereng, Serpong, Kabupaten Tangerang, Banten 15810

Aug 2023 - Feb 2027 (Expected)

Bachelor of Informatics

- Studied core subjects related to technology and software development, including Software Engineering and Management, Web Programming, Object-Oriented Programming (OOP), Machine Learning, Mobile Application Programming, Cyber Security, and Artificial Intelligence, each completed with hands-on projects to strengthen practical skills.
- Participated in the Basic Leadership Training (LDK) program at Universitas Multimedia Nusantara to enhance leadership, communication, and teamwork skills.
- Competed in the international World Computer Hacker League (WCHL) and successfully reached the national stage while completing two blockchain-based projects: Bitlend-ICP and EduChain.
- Took part in the Blockchain Developer Indonesia Challenge by developing a project titled "Notification Gateway".
- Selected and qualified to join the AWS re/Start Batch 13 program, focusing on cloud computing and career readiness in the technology field.

Organizational Experience

Person In Charge

- Served as the Person in Charge (PIC) Sakha during the 2024 Universitas Multimedia Nusantara Orientation Program (OMB). Responsible for guiding, assisting, and mentoring new students in their transition to university life.
- Acted as a supportive leader and role model by fostering an inclusive and comfortable environment, facilitating discussions, and providing motivation to help participants adapt academically and socially.

The Global Game Jam - Universitas Multimedia Nusantara

Jan 2025

Event Coordinator

- Served as Event Coordinator for the Global Game Jam (GGJ) 2025, responsible for planning, organizing, and ensuring the smooth execution of the event.
- Oversaw scheduling, activity coordination, and real-time management to provide participants with an engaging and well-structured game development experience.

Starlight UMN 2025 - Universitas Multimedia Nusantara

Feb 2025 - Nov 2025

Website Coordinator

- Served as Coordinator of the Starlight UMN 2025 Website, responsible for leading the end-to-end development process from planning to deployment.
- Oversaw UI/UX design, frontend implementation, and backend integration to ensure a seamless, functional, and visually engaging user experience.

Digital Interaction Community - Universitas Multimedia Nusantara

Apr 2025 - Present

President Digital Interaction

- Served as President of the Digital Interaction Community, responsible for leading organizational operations, managing competitions, and overseeing the development of digital projects.
- Led teams in developing applications, websites, and other community-based digital products that support learning and enhance members' technical skills.

Skills, Achievements and Competitions

- **Competition** 🏆 (2025): Represented Indonesia Hub in the World Computer Hacker League (WCHL) 2025, advancing from the Qualification Round to the National Round.Collaborated in a multidisciplinary team to design and develop innovative blockchain-based solutions under the theme of advancing Web3 technologies.
- **Soft Skills** (2025): Leadership & Team Management – Experienced in leading teams, coordinating projects, and mentoring members across academic and organizational settings. Communication & Collaboration – Skilled in conveying ideas clearly, managing discussions, and building positive relationships across diverse teams.
- **Hard Skills** (2025): Full Stack Developer & AI Engineer with strong expertise in software engineering and digital product development. Proficient in Go, Java, Kotlin, JavaScript, Rust, TypeScript, C, Python, and C#. Experienced in building scalable web and software systems using various frameworks such as React.js, Node.js, Laravel, Spring Boot, and Android/Kotlin frameworks, along with cloud (AWS) and blockchain integration. Focused on creating intelligent, secure, and high-performance software solutions through strong engineering and problem-solving skills.
- **Licenses & Certifications** 🏆 (2025): Completed the HCIA-openGauss V1.0 course, covering core fundamentals and practical skills in openGauss | an enterprise-grade open-source relational database. Topics include database architecture, SQL optimization, data security, backup and recovery, as well as performance tuning. Achieved HCIA-AI V3.5 course completion with a passing grade, covering AI principles, Python for AI, computer vision, NLP fundamentals, model evaluation, and Huawei Cloud AI tools. Demonstrated practical skills in building and deploying AI solutions.
